It gives players even more control of their shots and tactics in every game situation. The ball is now more realistic and match-specific. It moves faster and behaves more like a soccer ball, responding to the players' physical movement. It's interactive. It reflects the goal area more accurately. And, thanks to improved ball physics, it keeps its trajectory and bounce even in the most intense game situations. On the pitch, you'll see the ball bend and twist as it interacts with the players, meaning that players will have to make adjustments to get the most out of their technique, strength and tactics. Football a great game but it is very difficult. it is fun when you have many players around you but if u play in a forum with say no more than 4 players then the game is a bore. also there are many bugs. the ball do not go like it was written to go. the 1st keeper just out side of your club should be stuck in the ground he should not move at all. the keeper should stand firm till you shoot. the 2nd keeper should stand at the correct line at the correct angle. the blue lines do not change when the goal is scored. the third defender should move when the second defender shoots which makes it difficult for the third defender to block the shot. I do not understand what is the error in the game. at first i did not understand but i got it but it is still not correct. i hope you will sort this out. it should not be so difficult. if it was the new 3rd defender will shoot and stick to the goal and the third keeper will stay in place to block the shot. i know you can do it if you try and if you aim your shot at the right target but the shot is wrong. i would say it is the worst game of the last 5 years. but i must say that a must buy if you can afford it. great game. must buy. but there is one bug when my goal keeper defender keeps on the left of the goal he runs to the right of the goal and then sticks to the right of it dunno why he does that some one please tell me how to fix this bugA lot of people make a big to-do about the fact that people get pleasure from the physical process of fitness. You can't increase your confidence, self-esteem, and self-
